SHANGHAI BRITON TO GAOL FOR 6 MONTHS

'Almost Hounded Into It," Declares Judge: Accused Half-Crying Tells Story

SHAN, HAI, Aug. 22 (Reuter) -- "Yours is the hardest case indeed. You have almost been hounded into it." declared Assistant Judge P. Grant Jones in H.M. Supreme Court to-day in passing sentence of six months' imprisonment on Henry Cyril Davis, former employee of the Shanghai Gas Company, who pleaded guilty to a charge of falsifying the Company's accounts.

Davis told the Court that |= in the latter part of 1937 he was informed that his services would be retained only if he agreed to accept a reduced salary of \$300 as the Company could easily obtain the services of a younger

The accused also informed the Court that he joined the Company in 1915 and had always been honest and given satisfactory work. He received advances till he was earning \$500.

Half-sobbing, the accused declared. "I have a family to support. I have to live and eat. Instead of a raise I got a \$200 decrease."

MONEYLENDERS

Davis went on to relate how he got into debt with Indian moneylenders who pestered him.

In passing judgment. Judge Grant Jones said, "It is an unfortunate thing if all our employers say we can get a younger man than you to do your job at half the salary.' I trust such is not the practice in Shanghai. You, Davis, have almost been hounded into it. The least I can sentence you to is six months' imprisonment and I do

To celebrate the 82nd Anniversary of the Hongkong Daily Press, the oldest morning paper in Hongkong, which was established on October 1, 1857, a special supplement is to be issued. This will be printed on good quality paper and will be profusely illustrated, and it will give the best presentation of Hongkong yet attempted.

As the Hongkong Daily Press's 82nd Anniversary falls ten days before October 10, the Double-Tenth, which is China's National Day, it is proposed to commemorate the occasion in the same special supplement which will, therefore, also give a comprehensive account of the progress of the Republic of China as made under the guidance of the Kuo Min Tang.

It being the wish of the publishers of the Hongkong Daily Press to emphasize Sino-British friendship as the theme of the special supplement, a cover design clearly presenting this theme is being sought. NAZI BRIBE OFFER TO PUBLISHER

Nazi propaganda agents are working desperately to stifle any form of criticism of Germany in the Press of the country.

Recently a well-known firm of London publishers, about to produce a new periodical, received a letter from a Hamburg firm, offering to place a large advertising contact, on, exceptionally generous terms.

But there was one important condition. The contract was to apply only so long as the new periodical contained no adverse comments regarding Germany and German affairs. The offer was refused.

The choice of this particular periodical is significant, for it is one which is intended to appeal particularly to members of the fighting services.

It is known, too, that efforts are being made by persons in London claiming to be seeking to foster good relations between Britain and Germany to make this system universal as far as advertising of German goods is concerned.

WOMAN DOCTOR WINS APPEAL

New Trial Of Suit For Slander

'The Court of Appeal ordered a new trial of the slander suit in which - damages were awarded against Dr. Irene Kenworthy Gayus, of Queen's-gate, S.W.

Dr. Gayus appealed from the verdict of a jury and the judgment of Mr. Justice Greaves-Lord on Feb. 20, awarding £400 to Misa Frances Ella Buckley. shire, and Jean Erskine, younger of Hogarth - gardens, Heston, daughter of the late E. Erskine Middlesex, and £400 to Mrs. Jane worth Park, Feltham. She asked for judgment or a new trial.

> At the original trial it was stated that the plaintiffs ran a maternity home, and that the words complained of were allegations that abortions were practised there.

Serjeant Sullivan, K.C., for Dr. Gayus, criticised the summing up of Mr. Justice Greaves-Lord, and submitted that there was no ground for a verdict tha Dr." Gayus was guilty of slander. Giving judgment, the National Government. Mr. Chiao court had heard the matter very point. Accordingly the appeal failed in that respect.

"VITAL CONTEST"

In regard to the application for a new trial, based on alleged misdirection, Sir Wilfrid expressed the view that there had been misdirection on crucial matters. There was a vital contest in the case, as to which of two witnesses should be believed—Dr. Gayus or Dr. Durand, the secretary of the British Medical Association.

The Judge told the jury of an acute controversy existing at the time between the man who after wards became the husband Dr. Gayus, and the two plaintiffs.

There was, in fact, not a shred of evidence fit to be put before the jury that any such controversy existed at the time, and the plaintiffs were not asked single question about it.

It was impossible to say, added the Master of the Rolls, that the jury were not affected in their decision by this particular part of the directions by the Judge. There must be a new trial.

Lord Justice Mackinnon Lord Justice Finlay agreed. the appeal was allowed

Courageous Capture By Police Officers

A gun battle between a detective and escaping robbers, the plucky efforts of a goldsmith's apprentice in raising the alarm and giving chase, with bullets flying on every side, the accidental killing of a woman in the street and the final capture of the men by courageous police officers, were the interesting highlights of the story told by witnesses at the Criminal Sessions yesterday when three men, Chan Sang, Lai Yau and Yau Sang, stood in the dock on charges arising from a daring robbery committed on May 30 at the Wing Cheong Goldsmith Shop, No. 449 Shanghai Street, Kowloon.

Witness said he ran to the back of the shop and out by the back door, eventually meeting a gang or armed men at the junction of Shanghai Street and Dundas Street.

Leung Wing, another apprentice, said that after he heard a commotion as he was at the rear part of the shop, he ran out by the back door with Leung Kee and also met the armed men.

He gave chase along Portland Street, "Choungsha Street, Nathan Road, Soy Street, Salyeungchot Street, Argyle Street. Victory Avenue and Waterloo Road, with the robbers firing back at him at several points en route. He shouted "robbers" and also blew his police whistle all the time he followed the robbers, who were at the most about 40 or 50 feet ahead of him, said witness.

SHOTS EXCHANGED

In Argyle Street, witness said he was overtaken by a Chinese detective who exchanged shots with the fleeing men. He saw the detective wounded, blood cozing from his arm through his sleeve. He also saw a woman who had been accidentally shot holding her abdomen.

The detective and himself carried on after the robbers, continued witness. Tokyo Talks Deadlock

CHINESE PRESS COMMENTS

In case the Tokyo parieys on the Tientsin issue ends in a rupture, Japan will take advantage of the present acute tension in Europe to intensify the anti-British movement, the "National Times" predicts in a leading article yesterday.

Recent events in Shanghai and the threat to blockade Hongkong made by a Japanese spokesman in Canton, the journal declares, already point to this development.

Advice To Britain

The paper advises Britain to brogate the Anglo-Japanese commercial treaty as a retaliation in the event of the intensification of Japan's anti-British agitation.

A rupture in the Tokyo parleys may be taken to mean that Britain has veered from its course of appeasement in the Far East and that she is lining up with other Powers for concerted action against Japan, the paper says,

Six charges of embezzlement of sums totalling \$301.14, were preferred against Lam Tat-tsoi, clerk employed by the Fire Brigade Department, when he appeared on remand before Mr. T. J. Houston at the Central Court yesterday. Mr. F. H. Loseby appeared for the defence.

Sub-Inspector C. Goodwin said that on August 3 and 4 the defendant took sick leave. FitzHenry, Superintendent of "the Fire Brigade, following which investigations were made. Mr. W. Smith, Station Inspector, was sent to defendant's home. Lam was out, but Mr. Smith saw books and receipts relating to the

sums missing. On the same evening Lam came back to the station and returned a certain amount of the money to Mr. FitzHenry and he was arrested.

After further evidence was heard the hearing was adjourned until August 31.

TIENTSIN SILVER RESERVES

DEMARKABLE but erratic conclusions were arrived at by our Tientsin correspondent when he dealt with the question of the Tientsin silver reserves yesterday. The views expressed were purely his own and do not represent those of this paper: we frankly do not agree with them.

OUR CORRESPONDENT speaks of the "de facto government in North China in contrast with the Chungking Government, but he forgets that, apart from the National, or Central Government, in Chungking, which is both the de facto and de jure government, there is no other legal administration in China. Any other "government" that may be set up is a puppet, whether Japanese - sponsored or otherwise, and has no legal status whatsoever: therefore. it cannot properly be described as a "government" in any sense of the word.

THE NATIONAL Government of China is the administ. tration officially recognized by the Powers and all dealings with China must be conducted through that government and no other. Singular though it may be, even the Japanese invaders have not withdrawn their recognition of the Chinese Central Government.

THE SILVER RESERVES in Tientsin are solely and exclusively the property of the National Government and suggestions that the puppets have any right to it are to be wrong, so long as there is equal November 1897, for 75 Dividend Warrants may be ob. legally the property of the classed in the same category as Sept. 21. Civil Design And Town Planning

INTERESTING TALK AT ROTARY CLUB

"Civic Design and Town Planning" was the title of an interesting talk given yesterday at the Rotary Club tiffin at the Hongkong Hotel by Mr. C. E. Moore, B. Arch., A.R.I.B.A.

Major R. D. Walker, who, presided, "introduced the speaker and welcomed visiting Rotarian Edward Fang, of Nanking, and the following guests:—Rev. J. R. Higgs, Mr. H. Pegg, Mr. P. C. M. Sedgwick, Capt. Mullins (Fijl) and Mr. G. Fayne (Shanghal).

Mr. Moore said, in part: -City and town planning is an art and science concerned with guiding the physical growth and arrangement of a town to obtain the maximum results both economically and socially.

The defect of most cities is not the lack of town planning, but usually the piecemeal way it has been done by the estate developers in their private interests, without consideration of the community as a whole.

The objects of town planning are twofold:-(1) Easy access from one part

of the town to the other. " . (2) The control of types of buildings so as to give the maximum in order, health and efficiency in development

WATER SUPPLY

To achieve health a community must have a satisfactory (a) water supply (b) drainage and sewage disposal, (c) plenty of light and air in the work places and homes of the people (d) open spaces for "recreation.

Lack of proper regulation of the uses and bulks of buildings has resulted, amongst other things, in serious traffic congestion in many areas. For instance in Kowloon buildings originally erected for domestic uses are now converted into knitting factories and in Hongkong domestic buildings have been converted into shops on the ground floor and offices above.

NOTHING WRONG

Much has been said about the evils of the land and property

There is too much profit taking, without taking into consideration the good of the community. Not a lack of interest by the investor, but too much interest and too lit-

(Special to the "Hongkong Daily Press")

I think no one can recall without a smile and a little pity the charming Essay of Lamb on "Christ's Hospital," his old school. I wish I could draw such a delightful picture of the University of Hongkong, my old school! But it is an unreasonable ambition. "First and above all, I have not the gift of Charles Lamb, his golden pen, that God granted to him alone. Then he wrote his Essay 35 years after he had left Christ's Hospital and time had given a rosy and romantic atmosphere to his memories. BERLIN, Aug. 22 (Reuter)—Tension seems to be still increasing here and the conviction is becoming widespread that something is going to happen very soon

The "National Zeitung," which is closely connected with Field Marshal von indeed. Goering, writes in connexion with the Anglo-Polish Treaty, that "as in other important questions, the present week will bring a decision on this point too."

This plain" hint is re-echoed in political circles where it is emphasized that the alleged Polish "atrocities" cannot be allowed to continue much longer.

Meanwhile, reliable information suggests that Germany's trial mobilization is rapidly progressing.

SHANGHAI, Aug. 22 (Reuter)-The extent to which the "Open Door" in China has been closed against the United States. Germany and Great Britain by the Japanese invasion and occupation of China's maritime provinces is shown by an analysis of returns just issued by the Chinese Maritime Customs covering the first half of 1939.

Finally, the thin oxide films which form on the surface, either naturally or due to electrolytic treatment, render it -chemically inert and so greatly resistant to corrosion

Large Currents

The thermal as well as the electrical properties of aluminium, it is claimed, make it suitable for the transmission of large currents such as those carried by 'bus bars.

Rubber stocks held in the United Kingdom for the week ending Aug. 19 mounted to 50,708 tons being a decline of 3,550 tons.

NEW YORK COTTON

European War threats dominated the cotton market and fluctuations have been confined within moderate limits. Selling by spot-houses and liquidation has continued intermittently. Trade demand was not urgent and exports were poor. Needed rains being welcomed as very beneficial in the Western belt were off-setting the unwanted rains in the Central and Eastern sections. The crop has been progressing satisfactorily, and there are no valid reasons yet for 'killing' the crop on the score of possible adverse weather during this month, which is, however, the most testing period for the plant, We think that at present there seems to be very prospect of the yield being more nearer at 12 million bales than at 11.4 million bales. Consequently we doubt that any import advance will occur during the impending crop movements.

NEW YORK RUBBER

The market opened lower on weaker foreign advices and trading was dull throughout the session, but towards the close there was a partial recovery in response to encouraging London cables.

CHICAGO WHEAT

Sensational European developments, continually evoking fears of an impending outbreak of actual war, were reflected in higher wheat prices. Renewed export demand and general foreign buying were in evidence. Reports from Winnipeg indicate a large increase in Canadian exports.

Land And Property Held By Chinese To Be Confiscated

CANTON, Aug. 32 (Reuter) -Land and property, owned by Chinese not registered with the Peace Preservation Committee by Aug. 31, will be confiscated and disposed of, states a proclamation issued by the local Chinese Administration.

Questioned as to whether the measure was not unnecessarily severe at such notice, a spokesman of the Peace Preservation Committee said that notice to the effect that all property must be registered was "first circulated about three months ago, and therefore all owners who were absent from the city have had ample time to return and have their proper registered....

Not To Be Returned The spokesman added that once property has been confiscated. will not be returned to rightful owners.

It is believed that for one reason or other, many property owners have not returned to the city, leaving servants in charge in many craft "Awarua" and repaired

When it was pointed out that many owners may not have seen such notices, or that the servants left in charge were not intelligent enough to comply with the request spokesman replied that ignorance was no excuse as far as legal proclamations were concern-

SALVATION ARMY HIGH COUNCIL

LEADERS WANTS GREATER VOICE IN MOVEMENT

LONDON: Aug. 22 (Renter) -The High Council, of the Salvation Army, which is in session for the election of a successor to Gen. Evangeline Booth, passed a resolution "expressing a desire that no changes in the legal constitution in the Army should be promoted by the General elected, without fullest possible consideration of, and consultation with, the Commissioners."

GROWING FEELING The resolution, is interpreted as a formal expression of the strong growing feeling leaders that they should have a greater voice in the control and destiny of the movement.

The resolution possibly indicates that the views of Commissioner Lamb and his supporters. who favour a system of government by a "Cabinet," presided over by a supreme head, are prevailing with his colleagues.

JUDGE CANCELS A SENTENCE

Official Bound

A-jury's rider in a case at Manchester Assizes caused a judge to change his mind and saved a man

Plevin had been found guilty of conspiring to cause a gas examiner to make tests on specially prepared gas, conspiring to contravene the provisions of the Gas Undertakings Acts, conspiring to supply gas of low calorific value and conspiring to obstruct a gas ex-

great deal of anxiety He hoped he was not letting his feelings interfere with his duty, but he was disposed to think that he did not pay sufficient attention to Duty To The Public Mr. E. G. Hemmerde, K.C., de-

fending counsel, who referred to "Australia" will follow in due the jury's "admirable" rider. observed: "It seems to me that if it had been drawn up by skilled lawyers it could hardly have covered what they wanted to say better."

The Judge, to Plevin: On further reflection I am rather disposed to think that some of the oractices at Southport gasworks were not unknown elsewhere, and that this trial may have some effect in making people engaged in public occupations appreciate more fully than perhaps they do at present the duty they owe to the public at large, as well as to their immediate employers.

He said that he had read and reread the jury's rider and added: 'Although I thought that I had dealt with you leniently. I have satisfied myself I did not deal with you as leniently as perhaps ought."

The viury's rider referred to expressed the opinion that Plevin, during his short period at the gasworks, had endeavoured to do his best to improve conditions "in spite of the apparent lack of cooperation of the Chief Engineer and severe opposition of many at these works, and unfortunately contravened the law in so doing.

SILENCER FOR PLANE MOTORS

'SOFT - SPEAKER" MUFFLER

A "soft-speaker" airplane motor muffler, which would enable fighting craft to raid enemy territory with greater safety, was described at the French Association for the Advancement of Science, recently held in Belgium. The new silencer was described

by M. Jean Bosquet, an engineer for the great Liege Cockerill motor works, as "just exactly the opposite of a radio loud-speaker." effect, he said, is to tone down earsplitting acoustic power by reducing the frequency of sounds blast-

ed out by the motor cylinders. The silencer as described would still leave the noise of the propeller, which engineers so far have been unable to eliminate.

INVERTED LOUD-SPEAKER M. Bosquet said the silencer is expected to have a marked effect on the construction of commercial passenger aircraft by eliminating much of the sound-proof cabins for passengers comfort.

The "soft-speaker," is even built like an inverted loud-speaker, with the hig end of the "speaker" come attached to the motor exhaust. M. Bosquet described the invention to the 63rd Annual Congress of the French Association, meeting in Belgium in connection with the Belgian National Exposition.

CANTON, Aug. 22 (Reuter)-The Peace Maintenance Committee in Swatow was to have been inaugurated on Aug. 18 according to the Information Bureau of the South China Expeditionary Forces.

BERLIN, August 22 (Reuter)-The official German news agency has announced that Germany and Soviet Russia have agreed to conclude a Non-Aggression Pact.

COMPLETE CALM AND FIRMNESS IN LONDON

EMPHASIZED

LONDON, Aug. 22 (Reuter) — The position last night remained one of increased tension internationally, but of complete calm and unabated firmness in London, states Reuter's lobby correspondent.

There were no indications of any exceptional development yesterday and "among the many matters to be considered by the Ministers to-day the suggestion that the British Government should issue a reiteration of its attitude towards any act of aggression is expected to be included.

The opinion yesterday appeared to be that the Government's recent declaration on the subject is so clear as to ...

There remains every desire not to exacerbate feeling by an unnecessary statement. REVIEW OF SITUATION

On the other hand, the Ministers will review the situation fully as they find it to-day and will take such steps as will seem to be required.

The question of recalling Parliament was not raised by Mr. Arthur Greenwood, Deputy Leader of the Labour Party, in his talk with Mr. Chamberlain yesterday in view or one fact that the matter will be fully discussed by the Cabinet to-day

BRUSSELS, Aug. 22 (Reuter) -The Netherlands Government has accepted the Belgian invitation to a conference of "Oslo" powers which will be held next week.

But that the Axis Powers should be alive to the attitude of the Democratic Powers goes without saying.

CUSTOMARY TECHNIQUE Since the recent declaration of the Prime Minister in the House of Commons and Lord Halifax's speech on June 29, no chance has been lost to refterate the sentiments therein expressed during the subsequent contacts between the representatives of the Government in Berlin and Rome.

It is pointed out that any effort to misinterpret the British attitude is part of the customary technique to shake the confidence of the Democracies and to have an effect on the neutral powers.
